## CPR Congressional Briefing, April 25: 'Homeland Security and Government Secrecy Initiatives'

CPR Scholars to Detail Harm from Administration's Secrecy Policies, Including Possible Shielding of Corporate and Government Wrong-doing

Secrecy in government has increased significantly since the Bush administration took power, according to scholars from the Center for Progressive Regulation. Examples include provisions in the Homeland Security Act that throw a veil of government secrecy over *corporate* information, efforts by the Administration to shield itself from legitimate congressional oversight, and a new directive from the Administration blocking disclosure of presidential records that are more than 20 years old.

These and related topics will be the subject of "Democracy Dies Behind Closed Doors: The Homeland Security Act and Government Secrecy Initiatives," a Center for Progressive Regulation congressional staff briefing, Friday April 25, from 9:00 to 10:30 a.m. in Rayburn 2247. Light breakfast will be served. The session is open to the media.

The 90-minute session will feature two leading scholars on the subject: Rena Steinzor, Professor of Law at University of Maryland; and David Vladeck, Associate Professor of Law at Georgetown University. Both scholars are affiliated with the Center for Progressive Regulation.

What: Congressional Briefing on Secrecy Sponsor: The Center for Progressive Regulation

Speakers: Professor **Rena Steinzor**, University of Maryland Law School

Professor David Vladeck, Georgetown University Law Center

Where: 2247 Rayburn House Office Building

When: Friday, April 25, 9:00 a.m. (light breakfast served)

Founded in 2002, the Center for Progressive Regulation is a nonprofit research and educational organization of university-affiliated academics with expertise in the legal, economic, and scientific issues related to regulation of health, safety, and the environment. CPR supports regulatory action to protect health, safety, and the environment. Through research and commentary, CPR seeks to inform policy debates, critique anti-regulatory research, enhance public understanding of the issues, and open the regulatory process to public scrutiny. More information is available at www.progressiveregulation.org, or by contacting Matthew Freeman, CPR Media Office, at 301-762-8980 or at CPRMedia@earthlink.net.
